## **CLAIMS**

## What is claimed is:

15

- 1. A cooking appliance, comprising:
- a pot having an opening;
- 5 a handle hingedly attached to the pot, the handle having a lowered position and a raised position;
  - a lid configured to fit on the pot to cover the opening;
  - a gasket, wherein the gasket is positioned between the pot and the lid when the lid is placed on the pot; and
- a latch hingedly attached to the pot, wherein:

the latch has a locked position and an unlocked position;

when the handle is in the lowered position, the latch is in the unlocked position and the lid is removable from the pot; and

when the handle is in the raised position, the latch is in the locked position and the lid is sealed onto the pot.

- 2. The cooking appliance of claim 1, wherein the handle engages the latch when the handle is in the raised position.
- 3. The cooking appliance of claim 1, wherein the handle has two ends and each of the ends is hingedly attached to the pot near the opening.
- 20 4. The cooking appliance of claim 1, wherein the pot comprises an electric heating unit.
  - 5. The cooking appliance of claim 4, further comprising: an electric cord to supply the heat to the pot; and a cavity in the pot to store the electric cord.
- 25 6. The cooking appliance of claim 1, wherein the gasket is attached to the lid.

11668989v1 - 5 -

- 7. The cooking appliance of claim 1, wherein the gasket is attached to the pot.
  - 8. The cooking appliance of claim 1, further comprising:a second handle hingedly attached to the pot, the second handle having a lowered
  - a second latch hingedly attached to the pot, wherein:

position and a raised position; and

5

the second latch has a locked position and an unlocked position;
when the second handle is in the lowered position, the second latch is in
the unlocked position and the lid is removable from the pot; and

when the second handle is in the raised position, the second latch is in the locked position and the lid is sealed onto the pot.

11668989v1 - 6 -

- 9. A sealing apparatus for a slow cooker having a heating vessel with an opening and a lid configured to fit on the heating vessel to cover the opening, the sealing apparatus comprising:
- a handle hingedly attached to the heating vessel, the handle having a lowered position and a raised position;
  - a gasket, wherein the gasket is positioned between the heating vessel and the lid when the lid is placed on the heating vessel; and
    - a latch hingedly attached to the heating vessel, wherein:

10

the latch has a locked position and an unlocked position;

when the handle is in the lowered position, the latch is in the unlocked position and the lid is removable from the heating vessel; and

when the handle is in the raised position, the latch is in the locked position and the lid is sealed onto the heating vessel.

- 10. The sealing apparatus of claim 9, wherein the handle engages the latch when the handle is in the raised position.
  - 11. The sealing apparatus of claim 9, wherein the handle has two ends and each of the ends is hingedly attached to the heating vessel near the opening.
    - 12. The sealing apparatus of claim 9, wherein the gasket is attached to the lid.
- 13. The sealing apparatus of claim 9, wherein the gasket is attached to the 20 heating vessel.

14. The sealing apparatus of claim 9, further comprising:

a second handle hingedly attached to the heating vessel, the second handle having a lowered position and a raised position; and

a second latch hingedly attached to the heating vessel, wherein:

5

the second latch has a locked position and an unlocked position;
when the second handle is in the lowered position, the second latch is in
the unlocked position and the lid is removable from the heating vessel; and
when the second handle is in the raised position, the second latch is in the
locked position and the lid is sealed onto the heating vessel.

- 15. A method for sealing a lid onto a pot, comprising the steps of: placing a gasket between the lid and the pot; raising a handle hingedly attached to the pot; and engaging a latch attached to the pot, wherein the latch seals the lid onto the pot.
- 5 16. The method of claim 15, further comprising the steps of: raising a second handle hingedly attached to the pot; and engaging a second latch attached to the pot.
